

Jeremy (Yair) Landau | Full Stack JS Developer

725-221-9012 | yeruham58@gmail.com | yair-landau.com | linkedin.com/in/yair-landau-51232717a

Profile

With **eight years of comprehensive web development experience**, I specialize in both front-end and back-end technologies.

At Kinsta, I worked as a **JavaScript** Developer and **Team Lead**. I spearheaded the creation and management of sophisticated communication tools for both internal and external use, greatly improving system functionality and customer engagement.

My technical proficiency includes modern frameworks and technologies such as **React, Node.js, TypeScript, and GraphQL**, along with extensive experience working with databases like **MySQL, PostgreSQL, and MongoDB**.

I am dedicated to developing efficient, scalable solutions and enhancing user experiences through innovative and thoughtful development practices.

I am eager to bring my blend of experience, and passion for software development - to a dynamic team where I can contribute to innovative projects and continue to grow both personally and professionally.

Work Experience

2021 – 2024: Senior Full Stack Developer | Kinsta | Remote.

Kinsta is a cloud storage and hosting platform. See more about it: kinsta.com

- Full stack development and team leadership.
- Developing internal and external communication tools and maintaining existing systems.
- Took on the role of team lead for several projects, guiding teams and ensuring successful project delivery.
- Creating a new integrated system to allow the customers service team to take action on customer sites through the internal system.
- Working with **JavaScript, React, Redux, Node.js, TypeScript, GraphQL, MySQL, PostgreSQL, MongoDB, and Rethink DB**.
- Designed project architecture, data storage architecture, data migration, and backup.
- End to end testing using **Jest**.
- Ensured high-level coding standards through careful code review and advanced pipelines and CI/CD, using CircleCi.
- Communicated with all relevant company departments to make the best project design decisions and deliver an optimal user experience. (Working with **Jira, Slack, Figma, GitHub**)

2020 – 2021: React Developer | Allegiant Airlines | Las Vegas.

Allegiant air is an airlines company. See more about it: allegiantair.com

- Developing a newly designed web system for flights and hotels booking in collaboration with cross-company teams.

- Creating a new UI and UX for the booking system, communicating with legacy **Java** server and **PHP** middleware.
- Worked with **React JS** to complete the redesigned booking website.
- Managed data with **GraphQL and GraphQL client, Next.js**, and connected with PHP middleware and Java server.
- Managed branches, versions, and git repositories with **Lerna monorepo**.
- Worked with CRM and data management systems.

2019 – 2020: Full Stack Web Developer | ArtiSounds | Las Vegas.

ArtiSounds is a social network web platform that I created and developed from scratch. I was responsible for the design, architecture, and full development of the system, which allows musicians to record music tracks on top of one another while listening to all the tracks from other project members.

- Create a **React** app Using **Bootstrap**, managing with **Redux**, Using **axios** for **HTTP** req.
- Project planning and architecture.
- Create project API with **Node.js** using **Express**, Using **Sequelize** for DB ORM and **AWS s3** to host all user's media.
- Design and create **Postgres** DB, Using **Sequelize** cli migrations.
- Deployment with **AWS**, using **s3** to host frontend code, **route53** and **cloudFront** for DNS managing, and **ec2** instance to run API code, using **Nginx**.

2016 – 2018: Frontend & Backend Developer | Ravtech | Israel.

Working on many different company projects, Using Angular5, JS, HTML, CSS, Python, MySQL and many different external APIs (as Google Translate, Google maps etc.) Working with teams in the agile method.

- Working with **Angular 5**, Using **TS**, **Bootstrap**, HTTP req to **Python Django** API.
- Working with **Python, Django, Java, Mysql, Sqlite**.
- Working with **Google API** for Translate, Maps etc. And many other different external APIs.

Skills & Experience

- **Fast Learning:** Quick to learn new fields and technologies, always seeking challenges to improve myself.
- **Independent and Team Collaboration:** Effective in independent and remote teamwork environments.
- **Problem-Solving:** High problem-solving abilities and passion for innovative solutions.
