

# Yair Landau | Full Stack JS Developer

725-221-9012 | [yeruham58@gmail.com](mailto:yeruham58@gmail.com)

## Profile

I am a passionate and proactive Software Developer with **7 years of hands-on experience** deploying software solutions that make a tangible impact.

My main coding languages are **Node.js, React and JavaScript**, working with **all kinds of databases**, managing through huge data centers and complicated data structures. I love doing end to end full-stack development.

I thrive in environments that challenge me to learn and grow, integrating into projects. I have a keen eye for detail from the initial idea through to execution.

My approach combines a deep commitment to agile methodologies with a personal pledge to maintain code quality, security, and scalability. Colleagues know me not just for my technical skills, but for my collaborative spirit using strong communication skills toward cohesive and timely outcomes.

I am eager to bring my blend of experience, dedication, and enthusiasm for software development to a dynamic team where I can contribute to innovative projects and continue to grow both personally and professionally.

## Work Experience

**2021 – 2024: Senior Full Stack Developer | Kinsta | Remote.**

- Full stack development and team leading. Working on creating from scratch a new integrated system to allow our team to take action on customers sites through-out our internal system.
